SUMMARY

Software Engineer with 1+ year of experience building full-stack, voice, and AI agent products, currently at The Double. Artificial Intelligence and Machine Learning graduate from BMSIT with a strong desire to learn, solid problem-solving skills, and a collaborative mindset, thriving in team environments.

SKILLS

- **Languages:** Python, TypeScript, JavaScript, Dart, SQL, C, C++
- **Frontend & Mobile:** React, Next.js, Redux, Tailwind CSS, Flutter (iOS)
- **Backend:** Node.js, Express, FastAPI, Flask, REST APIs, WebSockets, OAuth, JWT, RBAC, BullMQ
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis
- **AI/ML:** LLMs, LangChain, LangGraph, RAG, NLP, STT/TTS, LiveKit, SIP Telephony, Vector Search
- **Tools & Deployment:** Docker, Git, GitHub, AWS (S3, Cognito, SES), Sentry, Codemagic, Postman, Render, Vercel

EXPERIENCE

- **The Double** *Jul 2026 – Present*
  Software Engineer India
  - Built Slack, Google Chat, and WhatsApp Business channels for AI agents with a unified inbox and AI drafts.
  - Developed voice calling in Python and LiveKit with SIP telephony, caller identification, and outbound AI calls.
  - Shipped the iOS app in Flutter with Google sign-in, call takeover, call rules, and Codemagic CI builds.
  - Added Salesforce and Gmail agent actions with multi-account OAuth, and a knowledge graph in Next.js.
- **Ellipsonic Technologies** *Jan 2026 – Jun 2026*
  SDE Intern India
  - Built multilingual voice AI agents using LLMs, STT, and TTS for real time student interactions using FastAPI.
  - Developed doctor agency management system with RBAC workflows and leave approval automation.
  - Collaborated on REST API design and documentation, including PRD and SRS creation, for feature planning.
- **Nano Stream Technologies** *Jan 2026 – Jun 2026*
  Web Developer Intern India
  - Converted Figma UI/UX designs into responsive, pixel-perfect web pages using HTML, CSS, and React.js.
  - Built e-commerce cart, checkout, and order tracking flows, integrated with backend REST APIs.
  - Implemented OAuth-based authentication UI and optimized page performance across devices.
- **IndiaMart** *Oct 2024 – Jan 2025*
  ML Intern India
  - Built an object detection pipeline that identifies and crops the main product from screenshots, filtering UI clutter.
  - Improved image search for screenshot based queries with approximately 80% object detection accuracy.

PROJECTS

- **ClinicVoice – Voice AI Clinic Receptionist**
  Tools: LiveKit Agents, Python, Next.js, OpenAI
  - Built a voice AI receptionist that verifies patients and books, reschedules, and cancels doctor appointments.
  - Created a Python agent backend with LiveKit and a Next.js frontend for real time voice calls in the browser.
- **Murshid AI – RAG Based Voice Assistant**
  Tools: FastAPI, ChromaDB, STT/TTS, Netlify
  - Deployed a voice enabled RAG assistant on Netlify with STT, vector search, embeddings, and TTS pipelines.
  - Built document ingestion and semantic search pipeline for contextual question answering.
- **Security Agency Management System**
  Tools: Node.js, PostgreSQL, Render
  - Deployed a platform for security agencies to manage many client accounts with role-based access.
  - Created REST APIs for guard attendance, leave requests, and client operations using Node.js and PostgreSQL.

EDUCATION

- **BMS Institute of Technology & Management** *2022 – 2026*
  B.E. Artificial Intelligence and Machine Learning Karnataka, India
  - CGPA: 8.2/10.00
- **SBR PU College of Science** *2020 – 2022*
  Pre-University Course Karnataka, India
  - Grade: 87.00%

CERTIFICATIONS

- **NPTEL Elite:** Foundations of Deep Learning: Concepts and Applications (IISc Bangalore)
- **NPTEL Elite:** Leadership and Team Effectiveness (IIT Roorkee)
